Hello Didier,

I've downloaded it. I'm using MSVS17 compiler. GanttCtrl_Test compiles fine (except conversion and possible loss of data warnings) and I'm getting the same graph.

However, GraphCtrl_Demo is giving some errors, perhaps all in Chameleon, see the image.

Though I could do without any Chameleon capability for now, to understand the working of GraphCtrl, running the demo would be useful.

I'll study more (please bear with my limited coding knowledge) and revert.
