Novo wrote on Thu, 04 June 2020 11:35A minor issue with mingw on Linux.
umk calls x86_64-w64-mingw32-windres.exe, which is called x86_64-w64-mingw32-windres (no extension) on Linux, otherwise +WIN32 seems to work ...
Could you please fix that?
You just need to replace
String windres = "windres.exe";
with
String windres = "windres";

TIA
