mirek wrote on Tue, 16 June 2020 11:52I am not 100% if above is an experiment or suggestion to change things.

If later, then the obvious counterargument is that what I wrote is just demonstration, in real life the expression will not be constant... :)

Mirek
constexpr behaves as normal function when expression is not a constant ...
So, it will work.
It is a suggestion to change things ...
It is a suggestion to use constexpr ...
