The whole thing compiled fine but failed at the linking stage with this error message:

/usr/bin/ld: undefined reference to symbol `backtrace_symbols' (try adding -lexecinfo)

//usr/lib/libexecinfo.so.1: could not read symbols: Bad value

c++: error: linker command failed with exit code 1 (use -v to see invocation)

gmake: *** [Makefile:256: theide] Error 1
