The whole thing compiled fine but failed at the linking stage with this error message:

```
/usr/bin/ld: undefined reference to symbol `backtrace_symbols' (try adding -lexecinfo)
```

```
//usr/lib/libexecinfo.so.1: could not read symbols: Bad value
```

```
c++: error: linker command failed with exit code 1 (use -v to see invocation)
```

```
gmake: *** [Makefile:256: theide] Error 1
```
