I tested IDE build with provided VirtualBox image of OpenIndiana. I was able to build the IDE but there were some problems:

Ouch, before I got to downloading it, it disappeared. Would it be possible to upload it somewhere and give me a link?

Hi,

Fortunately I still have the archive of OpenIndiana provided by gh_origin. The question is where should I upload them?

BR, Radek

How big is it? Generaly anywhere I can download it from...
