Quote:Also, analyzing this situation I think the nice improvement would be if we manage to display documentation from the tpp in LayoutDesign. It will display what Ctrl supposed to do. In context of StaticRect it might not be obvious.

Quote:That is a good idea, but one that will take some effort to implement.

This is something I truly miss in TheIDE. My suggestion: At least the API docs should be accessible in split panes.

Best regards,
Oblivion
