Oblivion wrote on Thu, 17 September 2020 17:01Quote:Also, analyzing this situation I think the nice improvement would be if we manage to display documentation from the tpp in LayoutDesign. It will display what Ctrl supposed to do. In context of StaticRect it might not be obvious.

Quote:That is a good idea, but one that will take some effort to implement.

This is something I truly miss in TheIDE. My suggestion: At least the API docs should be accessible in split panes.

Best regards,
Oblivion

Actually to have one specialized pane with docs could be cool...

I would say another tab in bottom areay would do, but it would be better it was more vertical for more info. But maybe I can display two columns there (column-list style...)

Either way, not in 2020.2....
