Dear Aquilarubra

Weird error, thank you to report.

No problem found until now with W10 or Ubuntu, MSC, GCC or CLANG.

I have replaced

```
fileName.WhenChange = THISBACK(OnNewFile);
```

with

```
fileName.WhenChange = [=](){return OnNewFile();};
```

You have got an error "cannot ... return object ... 'bool' with ... type 'void'

OnNewFile() returns bool instead of void but, I thought it should work.
