Subject: Re: how to make an editfield accept only number or date? have any examples in the documentation?
Posted by BetoValle on Sat, 03 Oct 2020 17:06:49 GMT

ops...only number i got it:

modify.surname.SetFilter(OnlyN);

where

int OnlyN(int x){

```
if((x>=48) && (x<=57)){
  return x;
}else{
  return false;
}
}
```

as a date there would have to be a different type of filter to check the position of the number and the characters "/" or "-" delimiting the date.

How do I do that?
