Subject: Re: Tester Needed for trayicon for linux version 0.1
Posted by 3togo on Fri, 29 Sep 2006 15:11:55 GMT

Thank you for your reply.

I have modified the codes. I wish that it would work this time.

nicomesas wrote on Fri, 29 September 2006 05:31In my ubuntu 606, the executable does not work. The console shows this message

./trayicon: /lib/tls/i686/cmov/libc.so.6: version `GLIBC_2.4' not found (required by ./trayicon)

I tried to compile the package, but the compiler does not find "libmb/mbconfig.h"

Nico
