BetoValle wrote on Sun, 29 November 2020 04:28 I'm sorry to disagree and I'm going to demonstrate that it works using SetForegroundWindow. You are right. The trick was adding "::" at the beginning. This line does it all works for me:
::SetWindowPos(w, HWND_TOPMOST, 0, 0, 0, 0, SWP_NOMOVE | SWP_NOSIZE | SWP_SHOWWINDOW)
Look at the "SWP_SHOWWINDOW" at the end.
Fixed in SysInfo.cpp.
