Subject: Re: Report / navigation to page number
Posted by BetoValle on Mon, 28 Dec 2020 12:52:01 GMT

Hi,

Ok! this worked within the ReportWindow class:

```
void ReportWindow::edgotoPage(){
     String s = edP.GetData();//edP * numeric field
  int np; // number of page
  np=StrInt(s);
  pg.ScrollInto(np-1,np-1,np,np);
}
```

note: see the image attached considerations about above routine
