Subject: Re: Win32 installation now comes with MinGit
Posted by JeyCi on Fri, 01 Jan 2021 12:05:49 GMT

yes I know - helps in developing process (e.g. to log changes done & rollback if needed) & version control & helps to interact among developers of different modules in one project... :blush: I've just thought that perhaps this news concerns U++ win32 development on git... but you probably meant simply win32... Anyway, thanks for news
