Xemuth wrote on Fri, 19 July 2019 12:29 and just got error :

Creating library...

lld: error: unknown argument: -u

collect2.exe: error: ld returned 1 exit status

There were errors. (0:00.34)

I probably used it wrong. Can you explain me what's for ?

today I've got the same error, then just changed gcc compiler for MINGW v.9.3 (from msys) - & dll compiled OK (for Windows was compiled)... though I haven't load it yet in main() to use it...

but I agree with Mirek

mirek wrote on Thu, 12 February 2015 15:30 With .dll you have to sacrifice performance and do many things in more complicated way...
