mirek wrote on Tue, 19 January 2021 11:18Novo wrote on Tue, 19 January 2021 15:33I guess the problem is with the dependency checking in umk/ide.

What do you mean?

I guess umk/ide does not detect that a package was removed (doesn't exist anymore).
It checks that binary code is not outdated, but it doesn't check that the source code is gone ...
