The list is directly in readme.md, because why not... :)

It is not parsable as a JSON file ...

I cannot use it with my build automation system because of this markdown formatting:

UppHub

...

```
#include <Core/Core.h>
```

```
using namespace Upp;
```

```
CONSOLE_APP_MAIN
```

```
{  
    HttpRequest r("https://raw.githubusercontent.com/ultimatepp/UppHub/main/README.md");
```

```
    String s = r.Execute();
```

```
    int begin = s.FindAfter("UPPHUB_BEGIN");
```

```
    int end = s.Find("UPPHUB_END");
```

```
    if(begin >= 0 && end >= 0)
```

```
        s = s.Mid(begin, end - begin);
```

```
    Value v = ParseJSON(s);
```

```
    if(v.IsError()) {
```

```
        s.Replace("&quot;", "\\\"");
```

```
        s.Replace("&amp;", "&");
```

```
        v = ParseJSON(s);
```

```
    }
```

```
    ASSERT(!v.IsError());
```

```
}
```
