SysInfo is maintained and tested daily. Please tell me in what environment you have that error and I will solve it.

I've just opened "bazaar/SysInfo_demo_gui", then compiled it (Execute button) on the freshly installed Upp TheIDE Version 15260 (CLANGx64 Debug).

My System:

Edition Windows 10 Pro

Version 20H2

Build 19042.746

Feature Experience Pack 120.2212.551.0

It throws me over 20 errors, one of it is the one with "mt19937".

Best Regards, Daniel
