SysInfo is maintained and tested daily. Please tell me in what environment you have that error
and I will solve it.

I've just opened "bazaar/SysInfo_demo_gui", then compiled it (Execute button) on the freshly
installed Upp TheIDE Version 15260 (CLANGx64 Debug).

My System:
Edition Windows 10 Pro
Version 20H2
Build 19042.746
Feature Experience Pack 120.2212.551.0

It throws me over 20 errors, one of it is the one with "mt19937".

Best Regards, Daniel
