Subject: Re: How to move packages from bazaar to github repo and UppHub
Posted by Klugier on Wed, 10 Feb 2021 17:41:51 GMT

Hello Xemuth,

Please read following instructions on the GitHub. The easiest way in term of maitainability for us is to create PR for UppHub repository. Pasting data from forum to repository, doesn't seem for me like to optimal approach and I will lose time to do it manually.
