Hi,

in Label this work! very god mirek! <https://www.ultimatepp.org/forums/index.php?t=msg&th=7912&go to=44362&>

(to activate the mouse, use `NoIgnoreMouse()` in constructor)

```
struct Lb: Label{ // Label LeftDouble double-click
    Lb(){ NoIgnoreMouse(); };
```

```
    void LeftDouble(Point p, dword keyflags)
    {
        WhenLeftDouble(p,keyflags);
        this->Label::LeftDouble(p,keyflags);
    }
    Event<Point, dword> WhenLeftDouble;
};
```

Thanks
