I do not know which platforms are supported, but on Linux I'm getting this:

UpdaterTest.cpp

In file included from

/home/buildbot/worker/al-upphub-Updater/build/Updater/Updater/Windows.cpp:1:

/home/buildbot/worker/al-upphub-Updater/build/Updater/Updater/Updater.h:6:10: fatal error:

'ProductVersion/ProductVersion.h' file not found

```
#include <ProductVersion/ProductVersion.h>
```

```
    ^~~~~~
```

Demo cannot be compiled.
