varu wrote on Fri, 16 April 2021 13:42Respected sir
having problem in installing upp_git on lubuntu 16.04 os
i tried to run make command but it resulted in the error shown in screen shot
please suggest me how to correct it.

Thanks
regrards

Hi, this actually looks like pretty recent bug in U++, or sort of. This is a result of adding pen
support like 1 month ago, it looks like there is missing #if for conditional compilation on older gtk.

Thanks for reporting. I am pretty sure that "major" release (not nightly) should compile without
problems...
