I'm sorry. c\_synonyms.h. file is in csv repository of opensolaris an "empty" file. The content is

That file 'unistd.h' is not necessary, at least in linux. You can comment or delete the line.

Nico

I've commented 'unistd.h', but now the compiler complain about

`#include <sys/un.h>`

that is absent in my 610-dev1.

Have you any new idea?

Luigi
