Hi,

On BSD-based systems there is a socket option called SO_NOSIGPIPE, instead:

FreeBSD >= 9.0: <https://www.freebsd.org/cgi/man.cgi?query=getsockopt§ion=2&manpath=FreeBSD+9.0-RELEASE>

MacOS X: https://developer.apple.com/library/archive/documentation/System/Conceptual/ManPages_iPhoneOS/man2/getsockopt.2.html

Note: Apparently neither MSG_NOSIGNAL nor SO_NOSIGPIPE is supported on Solaris (if we support that OS at all...).

Best regards,
Oblivion
