Hi, Ive compiled and am running a GUI package successfully, but I have a problem I need to debug. When I try to start the debugger, I get the message in the title. Ive tried the CLANG64 Debug and MSVS19x64 Debug compilers, Ive tried running TheIDE as administrator. Im running Windows 10. What does this mean, and what should I do about it?

TheIDE version is 15 947

Thanks in advance, Richard
