Subject: TheIDE support for Visual Studio Build Tools 2022?

Hi,

I just set up a new computer with Windows 11 and Visual Studio Build Tools 2022. It seems that TheIDE is not yet capable of detecting the compilers and tools (2017, 2019 and 2022) that come with this release.

Could these be added to the automatic setup of build methods?

Best regards,

Tom
