aquilarubra wrote on Thu, 02 December 2021 09:58I got the xml not parsed with this, copied from Firefox' Inspector:

request.Accept("text/html,application/xhtml+xml,application/xml;q=0.9,image/avif,image/webp,*/*;q =0.8");

However, I think that HttpRequest must be reviewed.

Is it possible to have url that is causing this problem?

If not, have you checked with browser that the server is serving the complete content? (Probably yes, but it is always good to check).
