upp-win-16152.7z

TheIDE does not run under win7
https://docs.microsoft.com/en-us/windows/win32/api/usp10/nf- usp10-scriptfreecache
"Important  Starting with Windows 8: To maintain the ability to run on Windows 7, a module that uses Uniscribe must specify Usp10.lib before gdi32.lib in its library list."
