mirek wrote on Sat, 08 January 2022 15:23I am mostly ok with that (and accepted it to codebase),
however I would like those blue frames of buttons (with defualt button having thicker frame)
retained.

Also, it would be good to make DropList popup table frame somewhat more gray.

Mirek

Mirek,

Changed the above mentioned items. Also made the TabCtrl tabs look more in line with the rest of
the Dark GUI. Please find attached the revised ChWin32.cpp zipped.

TODO: I would still like to have:

1. changed the white/blue/white stripe below TheIDE file tabs to something grayish. Maybe the
same color as the active tab.
2. changed the background of unselected Switch and Option to transparent to nicely fit on any
surface.

...but I have no idea how to do either of those.

Best regards,

Tom

EDIT: Deleted the attachment. Please use the latest instead.
