Working with U++ is really a charm.

Because I'm not programming every day, I made a sort of basic reference guide in PDF in order to get me started.

It is based upon the tutorials on the site + the examples on the site.

I loved to share this one with those interested to learn U++ :)

Have fun!

If somebody has some remarks, or find errors; please let me know! I'll be happy to update it in a newer version.

Fred.
