Subject: Editing multiple lines at once - multiline editing Posted by emve on Sat, 26 Feb 2022 16:06:50 GMT View Forum Message <> Reply to Message

Hello, i just installed U++ IDE to give it a try. There is a shortcut in visual studio - by pressing Alt + Shift I can extend the cursor to multiple lines and the type or delete text on these lines. Is there a way to do it in U++ IDE? Thanks. Michal
