How is that supposed to help? :)

Mirek

It doesn't help, you are right.

Directory selection must be in all native APIs:

Linux: `gtk_file_chooser_dialog_new(..., GTK_FILE_CHOOSER_ACTION_SELECT_FOLDER, ...);`

Windows: `SHBrowseForFolderA(...);`

Mac: `NSOpenPanel` can choose a directory.

Victor

OK, not too much happy about this late new feature, but done... Pls check.
