Novo wrote on Wed, 06 April 2022 09:07: It turned out that Windows has a command line package manager called "winget" now. (This, probably, was already discussed on this forum) IMHO, it would be cool to have an Upp package for it. Installing Upp via "winget install Upp" seems to be the easiest way to get it. And "winget search upp" seems to be the easiest way to find it.

Go for it
