forlano wrote on Fri, 20 October 2006 09:21 No, with MSC8 I've not the debugger tool.

Very rare! I have installed the Visual Studio 2005 express and debuger works enough good to me.

Quote: Anyway it ceashes with the SEND commad.

I have compiled the bigmailer-beta2 with U++ 610-dev2 in windows and it works correctly.

Here are the executable, please test it in order to know if its works.
