Navigator doesn't recognize some functions

e.g. these ones

```
extern DECLSPEC void SDLCALL SDL_LockAudio(void);
```

```
extern DECLSPEC void SDLCALL SDL_LockAudioDevice(SDL_AudioDeviceID dev);
```

```
extern DECLSPEC void SDLCALL SDL_UnlockAudio(void);
```

```
extern DECLSPEC void SDLCALL SDL_UnlockAudioDevice(SDL_AudioDeviceID dev);
```

it shows like

```
SDLCALL : void
```

```
SDLCALL : void
```

```
SDLCALL : void
```

```
SDLCALL : void
```
