To fix the below I ended up doing this.

```
void DrawLine(BufferPainter* bp, int x1, int y1, int x2, int y2, double stroke, Color color) {  
    double center_of_line_x = 0;  
    double center_of_line_y = 0;  
    if(x1 == x2) {  
        center_of_line_x = stroke / 2.0;  
    }  
    if(y1 == y2) {  
        center_of_line_y = stroke / 2.0;  
    }  
    bp->Move(x1 + center_of_line_x, y1 + center_of_line_y).Line(x2 + center_of_line_x, y2 +  
    center_of_line_y).Stroke(stroke, color);  
}
```
