Hello,

I would like to inform you that the UppHub package UppGoogleTest has been updated to version 1.12.1. The main reason of that update is to fix false positives raised by libclang through Assist++. Moreover, I improved README.md by adding paragraph about TheIDE integration.

The GoogleTest in version 1.12.1 is compatible with C++14 and above. The support for C++11 has been drop.

Enjoy and if you like my package please do not forget to star it on GitHub!
