Hi Mirek,

OK, I see. (I can send you my modified plugin/GDAL with GDAL 2.4.4 if you like, but it's getting old too. I'm also using some OGR parts for vector formats.)

As for the future, I wonder if we could push the plugin/TIF a bit further with GeoTIFFs... Here's my recent post about it:

https://www.ultimatepp.org/forums/index.php?t=msg&th=120 07&goto=59517&#msg_59517

And maybe also upgrade it to using latest libtiff (4.5.0)?

Best regards,

Tom
