Hi,

Another crash issue. Loading the following file to examples/ImageView crashes (in plugin/TIF) on Windows. It fails in some setjmp code creating the decompressor, which I do not understand.

Here's the JPEG compressed TIFF file:

<https://www.marinha.mil.br/chm/sites/www.marinha.mil.br.chm/files/geotiff/22700geotiff.zip>

On Linux loading this file does not cause a crash.

Best regards,

Tom
