[View Forum Message](#) <> [Reply to Message](#)

in the line 246 I inserted the contents of the previous version and it worked fine!

```
#ifdef PLATFORM_WIN32

String GetInternalGitPath() { return GetExeDirFile("bin/mingit/cmd/git.exe"); }

bool HasGit()
{
String dummy;
static bool b = FileExists(GetInternalGitPath()) || Sys("git", dummy) >= 0;
return b;
}

#else
bool HasGit()
{
String dummy;
static bool b = HostSys("git", dummy) >= 0;
return b;
}

#endif
```
