I notice that GetPut(key, value) just cause assertion fail when the key is not in map, not like GetAdd(key, value) that will create new element in such case.

```
#include <Core/Core.h>

using namespace Upp;

CONSOLE_APP_MAIN
{
    StdLogSetup(LOG_FILE | LOG_COUT);
    VectorMap<String, int> vm;
    vm.GetAdd("getadd", 1); // ok
    vm.GetPut("getput", 2); // Assertion failed
}
```
