U++ 16270  
Windows 7  
MSVS17x64

Downloaded ScatterCtrl\_demo from UppHub.

Get the following errors:

```
----- examples/ScatterCtrl_demo ( GUI MAIN MSC17X64 DEBUG DEBUG_FULL MSC WIN32 )
```

```
cl : Command line warning D9025 : overriding '/EHs' with '/EHa'
```

```
main.cpp
```

```
f:\upp-win-16270\upp\upphub\scatter\scatterdraw\DataSource.h (282): error C3861: 'IsNum':  
identifier not found
```

```
F:\upp-win-16270\upp\UppHub\Scatter\ScatterDraw\ScatterDraw.h(1158): error C3861:  
'FormatDoubleAutosize': identifier not found
```

```
...
```

```
examples/ScatterCtrl_demo: 20 file(s) built in (0:17.90), 895 msec / file
```

Why are IsNum and FormatDoubleAutosize missing?

How do I fix this?

Thanks.
