Tom1 wrote on Mon, 11 September 2023 15:38And another thing...

When using "Show git history for file..." for "plugin/tif/tifupp.cpp" and comparing the previous and current version, very large region of code seems to be changed at the first glance. However, in reality, the comparison function does not match the lines very well and there are just few changes to display. Please take a look.

Best regards,

Tom

There is a change in indentation. Should we ignore it? (That is not rethrical question, I really wonder whether we should... it is doable)

Mirek
