Subject: Bobcat, a cross-platform terminal emulator Posted by Oblivion on Tue, 19 Dec 2023 21:49:38 GMT

View Forum Message <> Reply to Message

Hi,

I am happy to announce that I have finally made the Bobcat terminal emulator public.

While the foundations (U++ & TerminalCtrl) are solid, the app itself is new (and Bobcat is also meant to be a U++ tech demo), It is still under development, and the github repo is under construction.

Stay tuned for more news.

8)

Happy new year to everone!

Best regards,

Oblivion
