Hello Pradip,

Nice to here about you.

It's been some time since i've connected to the forum, although I go to it without connecting myself ... so I missed you're message :blush:

I have done some enhancements since then (maybe not much though : I didn't have any needs) but I am currently adding data selection for ScatterSeries (I already added whole serie selection/highlight through legend select)

I will try to add X/Y zoom synchronisation.
