Hello,

I have another issue in dark mode. The label box disappear (see picture) 8o .

I tried to put `Ctrl::SetDarkThemeEnabled();` in `GUI_APP_MAIN`

```
GUI_APP_MAIN
{ Ctrl::SetDarkThemeEnabled();
...
}
```

With no result. Is there a way to fix it.

Thanks a lot,
Luigi

edit: in the IDE the LabelBox is barely visible but in my app it is completely disappeared
