Oblivion wrote on Mon, 21 October 2024 23:24Quote:What is clang --version?

clang version 18.1.8
Target: x86_64-pc-linux-gnu
Thread model: posix
InstalledDir: /usr/bin

I have also pushed a bunch of changes which I suppose should fix this. Can you try master?

If you mean commit 509e32c, I just tried it and no, unfortunately, TheIDE is still crashing with the same behaviour. :(

Weird. Any chance of getting the .log?

Should we file this in clang's bugzilla?

At this point, yes.

That would mean isolating the issue into some small example, which we are still far from :(
