Novo wrote on Fri, 22 November 2024 02:07Ide on Linux was crashing like crazy in "Open main package" till I compiled a Debug version and ran it with valgrind.
I've attached a valgring log file.
I guess the problem is related to reading of an outdated config file.

Uhm, tried to fix valgring complains (master or

```
Image StreamRaster::LoadFileAny(const char *fn, Gate<int, int> progress)
{
 FileIn in(fn);
 if(in)
  return LoadAny(in, progress);
 return Null;
}
```

but nothing there indicating what kind of error is going on. Is it possible to create plain old gdb bt?
