2024.1.1 rc

[https://sourceforge.net/projects/upp/files/upp/2024.1.1%20rc /](https://sourceforge.net/projects/upp/files/upp/2024.1.1%20rc/)

(new one...)

- fixed problem with Assist on MacOS
- fixed problem with version number in About box
- fixed cosmetic issue in About box
- fixed win32 Core/SSH .upp file

(I will fix other MacOS issues with 2025.1, which actually can come pretty early)
